vanced to the vicinity of Fengtal, few miles east of Changsintien, where Cherry Tso Lin's troops railied for defense. The fighting was thus brought near Peking's walls, and warning was sent to the city authorities that soldiers were about to enter the capital. The gates were immediately closed, only foreigners who had been shut out being per mitted to return.

By mid-afternoon Wu Pel Fu ha captured Fengtal, thus delivering a de-cinive blow at Chang Tso Lin's stronghold nearest Peking. Soon the retir-ing army had been driven so far from the city that the firing could be less distinctly heard here, although stragters continued shooting directly un der the walls.

Wu Pel Fu's attack in this section is believed to have been undertaken concurrently with similar drives at Machang, on Chang Tso Lin's southeastern front, and also on his middle front on the Hun River. Consular eports indicated that the fighting at those places was intense. No details vere received but it was reported that Chang Tso Lin's army was forced to

GREATEST MAYOR OF CHICAGO, HYLAN

Gives Hint of Third National Party Movement.

Mayor William Hale Thompson of Chicago, after listening attentively to-day while Mayor Hylan piloted the Board of Estimate through a transit hearing, delivered an address to the board and the assembled spectators. The speech came as a response t Mayor Hylan's reference to the viitor as "the greatest Mayor Chicago ever had," who was fighting corporate greed in that city as he. New York's Mayor, was doing here.

It was at this juncture that Mayo Thompson, who is a Republican, gave broad hint of the third Nations party movement when he said:

"From my experience in public lit I am more and more impressed every day with one great thought-irrespective of our parties or whom we follow from political standpoints-there is arising in both the major parties this great country of ours a grea division and that division, as I see i is within the party between those men who stand with the incrests and those men who stand with the people "You have that here in New York

and it is exemplified not only in th meeting to-day but in the vote given to Mayor Hylan in his re-election. The people of this city, when they r elected Mayor Hylan, said to the pe ple of the United States and to the people of the world: 'We, the people will stand by public officials wh When that great vote stand by us. was cast for Mayor Hylan the peop of New York encouraged public mein public life to continue the fight in their behalf and that they would n be forgotten when election day can around

"As I heard this discussion and have compared it with the thing that are going on in Chicago, I am only more impressed than ever that the people of New York and the people of the City of Chicago have a great deal in common, and the friendship that exists between your Mayor and the Mayor of Chicago, and through that largely the people of New York and the people of Chicago, that when these two great cities join hands on these two most important issues, that when we go to Washington, to Al bany, or to Springfield, Ill., we will he heard and we will be given much more consideration than as though

we stood alone. When New York and Chicago-
